EXPERIENCE

ZETHETA ALGORITHMS PVT. LTD. || DATA SCIENTIST INTERN

July 2026 -- Aug 2026

- Developed AI and machine learning solutions using Python, statistical analysis, and data-driven modeling to generate insights from complex datasets.
- Applied machine learning and statistical methods to analyze, model, and evaluate risk across physics and financial domains.

ACHIEVEMENTS

RESEARCH

- Published GroMart research paper in IJCRT (2025-26) — Impact Factor: 9.17*. (IJCRT metric calculated using Google Scholar/Semantic Scholar methodology).— [Click Here](#).
- Research paper on **MindTrace AI** currently under review in **Springer Nature – Data Science and Engineering Journal (DSEJ IF:4.2)**, a Q1 journal.

PROJECTS

ML MODEL MONITORING & DRIFT DETECTION [Github Link](#)

| FASTAPI, NODE.JS, REACT, SHAP, DOCKER

2026 -- Present

- Developed an end-to-end ML model monitoring framework covering 25+ automated tests across univariate, multivariate, data-quality, data-drift and concept-drift scenarios.
- Integrated 8 statistical drift detection methods including KS Test, Chi-Square, PSI, Wasserstein Distance, Jensen-Shannon Divergence, CUSUM, PCA-Mahalanobis, and MAE-based concept drift with SHAP feature importance.

MINDTRACE AI+ | REAL-TIME EMOTIONAL INTELLIGENCE SYSTEM [Github Link](#)

| REACT, NODE.JS, PYTHON FASTAPI, NLP, MONGODB

2026

- Developed an AI-based multimodal system using NLP, Hugging Face Transformers, and Computer Vision to analyze textual and visual data in real time.
- Developed an LLM-powered AI chatbot for semantic analysis and personalized responses using NLP techniques.

MATRISK AI -- DUAL-DOMAIN RISK INTELLIGENCE SYSTEM [Github Link](#)

| PYTHON, SCIKIT-LEARN, FASTAPI, STREAMLIT, DVC, PLOTLY, PYTEST

2026

- Developed ML models for physics-constrained material degradation and financial risk, achieving R^2 scores of 0.43 and 0.47, respectively.
- Implemented DVC and Pytest for data/model versioning, validation, testing and reproducible ML development.

EDUCATION

KIT'S COLLEGE OF ENGINEERING, KOLHAPUR

B.TECH IN CSE (DATA SCIENCE)

Aug 2023 -- Present

CGPA (upto 6th sem): 8.5 / 10.0

DEVCHAND COLLEGE, ARJUN-NAGAR

HIGHER SECONDARY CERTIFICATE (HSC)

2021 -- 2022

Percentage: 64.12%

SKILLS

Programming: Python, C, Java

Frameworks: FastAPI, Flask, Streamlit, React, Node.js

Cloud & MLOps: AWS (EC2, S3), GCP, Docker, MLflow, DVC, Git

ML/DL: Scikit-Learn, TensorFlow, PyTorch, XGBoost, Computer Vision, Transformers, Supervised/Unsupervised ML, Hyperparameter Tuning, Feature Selection, SHAP

AI/GenAI: Generative AI, LLMs, NLP, RAG, Hugging Face, Semantic Analysis, Embeddings

Data & Statistics: pandas, NumPy, EDA, Data Analysis, Feature Engineering, Statistical Analysis, Hypothesis Testing, Descriptive Statistics

Databases: MySQL, SQL, PostgreSQL, MongoDB

Modeling: Model Evaluation, Model Monitoring, Drift Detection, Model Deployment

CERTIFICATIONS

[Google Data Analytics-Coursera] [Verify](#)
[Spring Boot React js Full Stack-udemy] [Verify](#)
